

## The Future of Retail Execution

From In-Store Robots to Image  
Recognition and Dynamic Planning

COLLABORATIVE MARKETING SUCCESS VIA NEXT  
GENERATION TRADE AND REVENUE OPTIMIZATION!

SPRING  
SUMMIT 2018

"Winning with TPx, Retail Execution,  
and Advanced Analytics Capabilities  
Across Channels"

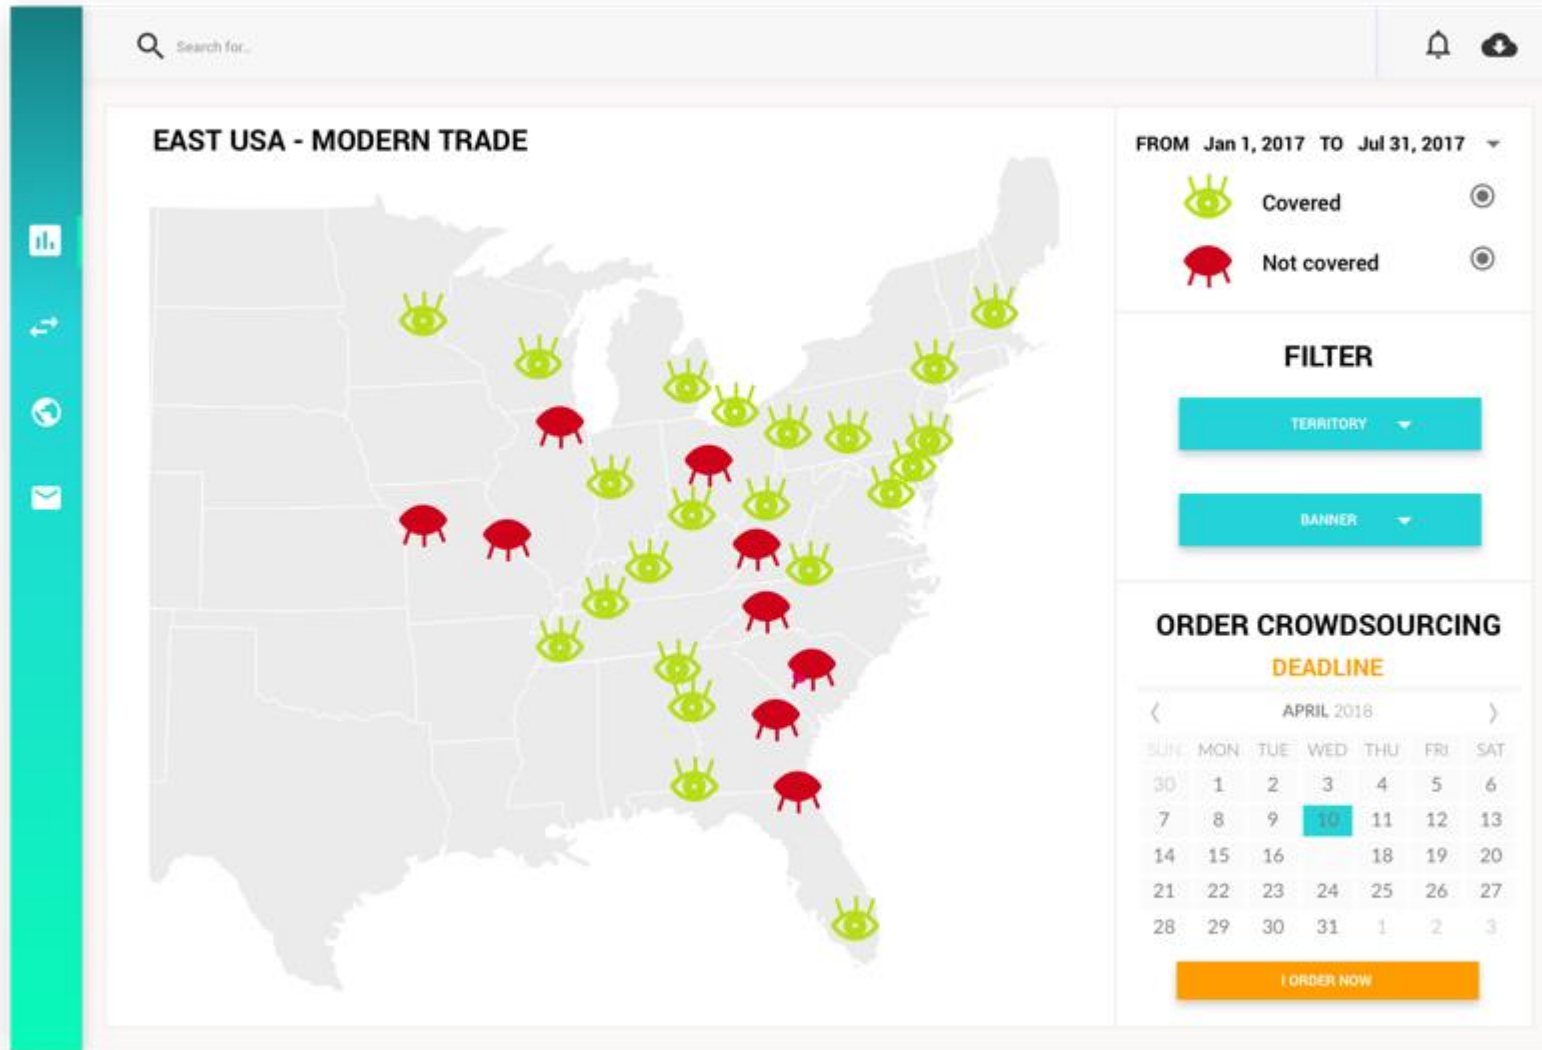

# SWITCH ON GROWTH

# Welcome to the age of Ubiquity

# Get a million eyes in one click

## Add a splash of A.I. to get Shelf-Data Intelligence

# A very short history of AI: Handcrafted Knowledge

## 1st Wave

The 1st wave systems enable reasoning over narrowly defined problems but they have no learning capability and poor handling of uncertainty.

# A very short history of AI: Statistical Learning

## 2nd Wave

The 2nd wave systems have very good capabilities to classify data and predict the consequences of data.

# The Future of A.I. will be Contextual Adaptation

## 3rd Wave

The 3rd wave systems will be built around contextual models.

# Comprehend the incomprehensible

# Big Data for Digitally-empowered Field Forces

Combining, integrating and filtering data from many sources

# Real-time GPS for Sales Reps

# The Future of Retail Execution is at hand...
